Bunyip Adventure Walkthrough

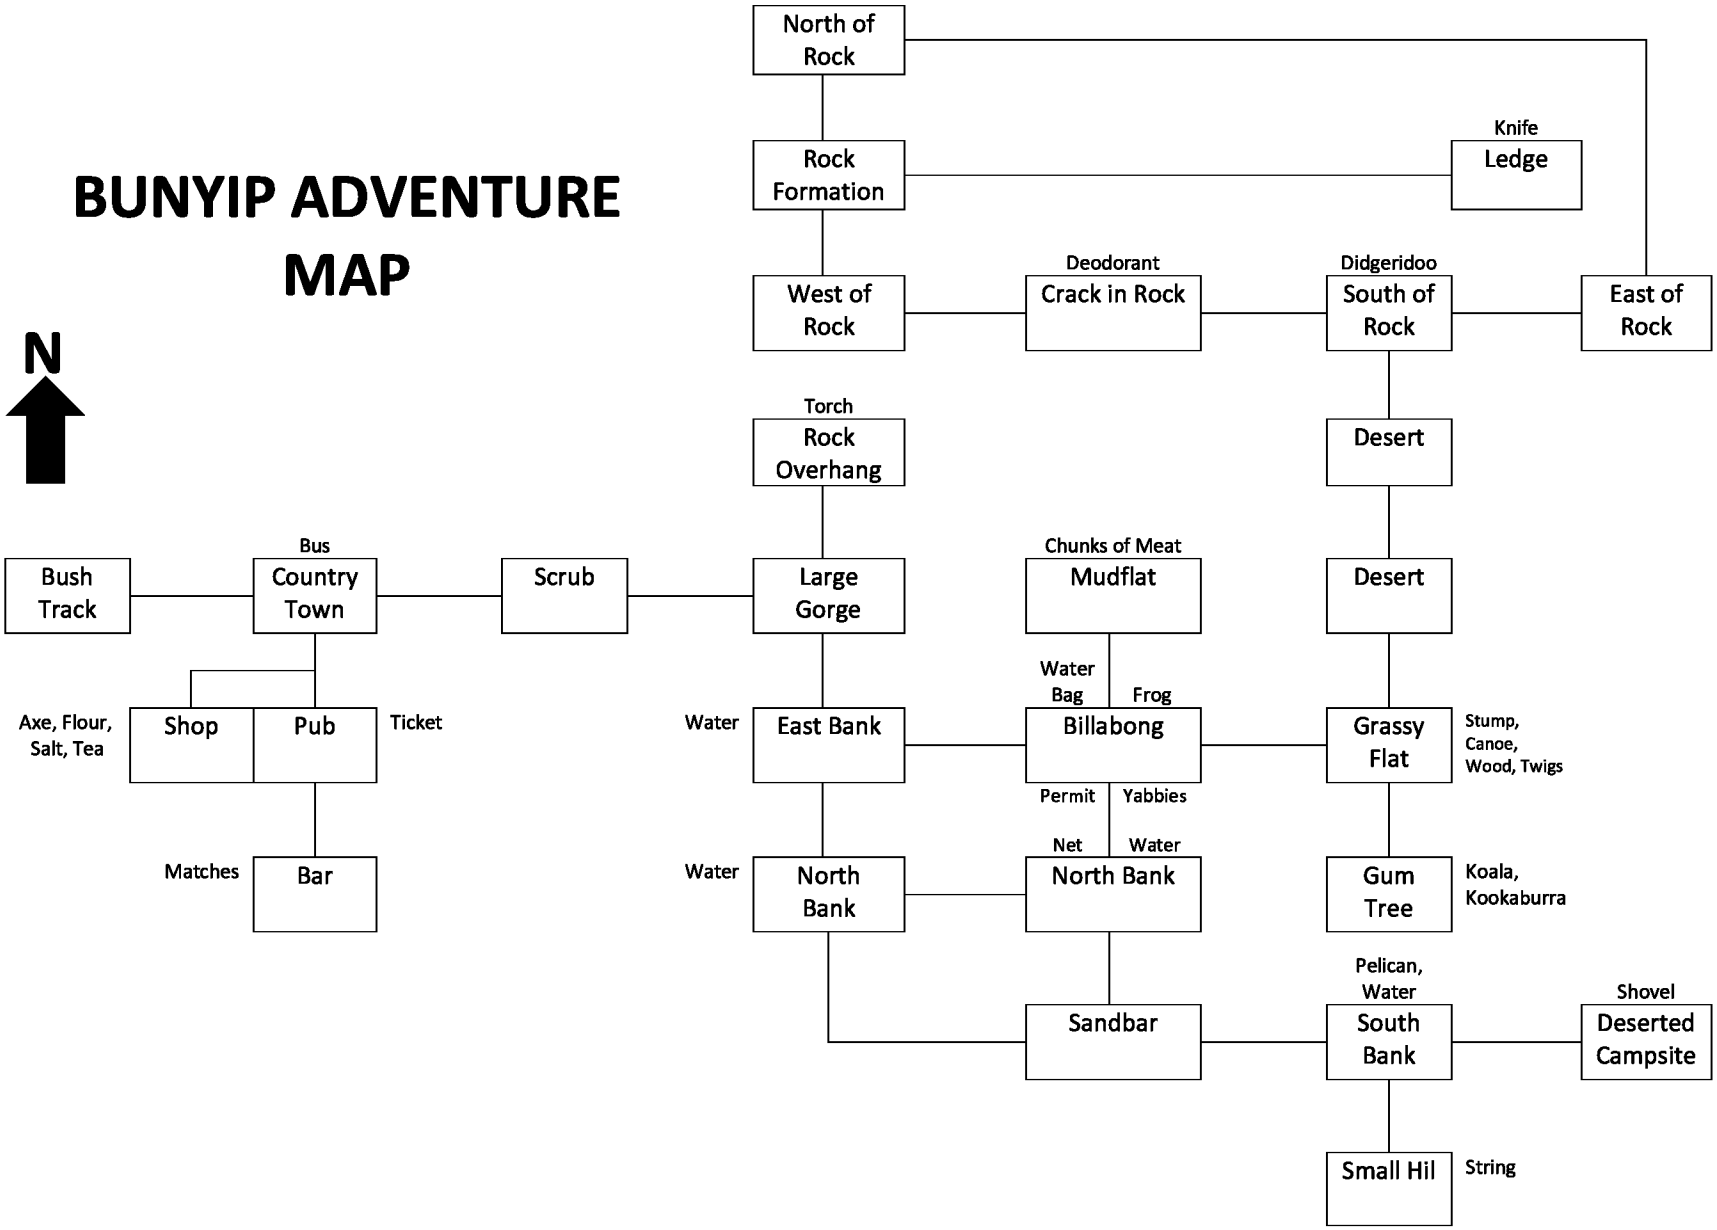

With a few exceptions, this game accepts the first three characters of commands, eg EXAMINE WATER can be entered simply as EXA WAT. It displays the obvious exits, N(orth), S(outh), W(est), E(ast), U(p), D(own) at each location, and the "GO" command followed by the location can be used for those listed as objects. Bunyip Adventure comes with an in-game hint system which can be activated by typing HELP in various locations. Below are some additional hints for those who are stuck but don't want a full walkthrough.

Hints

- The MAR(k) and BAC(ktrack) commands can be used to restore game to a previous position.
- The axe may be too blunt to cut the net, but it's still sharp enough to be of use elsewhere.
- Rock carvings in the game, when read from right to left, contain clues on how to capture the bunyip.
- One of the challenges in the game is to look beyond the black stump. Can a regular stump be turned black?
- In a possible clue, the manual contains a picture of a billabong with the word "DIG" carved into a coolabah tree.

Commands needed are:
BAC(ktrack), BOI(l), BUR(n), BUY, CHO(p), CUT, DIG, D(own), DRO(p), E(ast), EXA(mine), F(ish), GET, GO, HEL(p), I(nventory), LIG(ht), MAK(e), MAR(k), N(orth), PLA(y), QUI(t), R(ead), ROW, SLE(ep), S(outh), SPR(ay), TAL(k), U(p), UNL(ight), WAI(t), (W)est.
